Global Community
Members in over 40 countries!

Education
MESA’s Global Education Program (GEP) offers the most modern education available covering topics across MES/MOM and Smart Manufacturing. Take an online course, onsite certificate program, or host an in-house program with your company or supply chain. All GEP options are an easy way to get your team understanding the same baseline knowledge.

Online Library
Over 1000+ downloads of relevant content to help you build and implement best practices and IT strategies. Choose from peer-reviewed white papers, case studies, webcasts and more!

Peer Forums
Join a MESA Working Group to talk with peers about modern issues, and help build solutions, strategies and valuable research with MESA.

Expert Networks
Ask MESA your questions online (publicly or anonymously) or choose from a list of MESA-Recognized Companies and Practitioners to contact.

Events
MESA’s Smart Manufacturing World Tour includes onsite courses, workshops and sessions. MESA also hosts online events like webcasts and our annual Smart Story Awards contest.

Don’t go it alone. Whatever questions you have about IT in manufacturing, we’re here to help.
