LIFECYCLE

Individuals interested in forming a MESA committee, sub-committee, working group or special interest group must make initial contact with MESA's Executive Director (Brandy Richardson, brandy@mesa.org). The International Board or a designated group will evaluate the application and move the request through the review process.

- Formation
 - Application Process:
 - Applicant for the group to submit a written charter to MESA's Executive Director that outlines the type of group they want to form (committee, sub-committee, WG or SIG), the purpose of the group, profile of proposed members, goals (such as development of a white paper, guidebook, webcast, or other content), and timeframe for existence of the group. Per MESA bylaws, at least one MESA board member must participate within each committee (this requirement does not apply to sub-committees, working groups and SIGs). If a new committee chairperson is not serving on the International Board, they will become an officio, non-voting Board Member at Large. MESA's International Board or designated group must approve the establishment of any new group.

- Development:
 - Each group is responsible for recruiting members that fit the outlined member profile, with the assistance of MESA Headquarters. Groups cannot exclude individuals from joining that fit the profile and meet the membership requirement.
 - MESA HQ will assist with group development in the following ways:
 - Announcement of formation of new group in email blast and/or enewsletter.
 - Listing on MESA website Committees & Activies page or Regional Groups page with sign-up option.
 - For newly developing Regional SIGs, the SIG chair will be provided with a list of member contacts in the region upon request, and will be required to sign a document agreeing to contact the members for MESA business only.
- Dissolution
 - Group progress will be monitored by the International Board or a designated group. Groups may be dissolved by MESA due to lack of activity and/or relevance. This is solely at the discretion of MESA International.
 - Participants from a group may be removed from the group if they do not follow MESA's published Committees and Groups Policies & Procedures, or if they do not participate for more than 2 months. If a group participant is acting in a disruptive manner, the group's chairperson should bring a recommendation to the International Board that the person no longer be allowed to participate.
 - The progress of sub-committees and working groups will be monitored against any designated timeframe for the existence of the group. The group will be dissolved at the end of the designated timeframe unless a revised application is submitted and approved by the board.
